Resident/Post Graduate Surgical Video Competition

We encourage all residents/Post. Graduates to submit an edited 3-minute cataract/glaucoma/anterior segment surgical video with voice over using the video link below. Selected videos will be featured during the conference and published on southerneyecongress.com. The grand prize winner will receive a certificate presented by the panel, travel, and one night's stay at the venue for the meeting (est. \$500 value).

Upload your pre-recorded video, or create a video

Email mmartin@alamedical.org for questions

Videos must be in High Definition. 1920x1080 (1080p) is ideal; minimum is 1280x720 (720p). note that your video camera source must output in HD. "up-converting" a non-HD video from 480p to 1080p will still result in a low resolution 480p video which is not acceptable. In addition, if your video is out of focus, then we cannot accept it.
